T-1200R SPECTRUM

Maximum Performance, For The Most Demanding Operations.

Key Points:

- Quiet operations.
- Low fuel consumption.
- Low life cycle cost.
- Reduced emissions & waste.
- Easy to use and service.
- Ideal for multi-temp distribution.

T-1200R SPECTRUM Features and Options

Performance:

Refrigeration Capacity 0 degrees C (W)	11000
Refrigeration Capacity -20 degrees C (W)	6400

OPTIONS:

ThermoKare	■
Cycle-Sentry	●
Extended maintenance interval: EMI 2000	●
Thermo King high performance battery	●
Whisper™ Low Noise kit	□
Thermo King EON battery	□
Two year full warranty	●
TherMax system	●
DAS (Data Acquisition System)	□
TKDL data capture	■
Wintrac (data analysis software)	■
FleetWatch (fleet management software)	■
TrackKing (tracking and load monitoring)	■
TSR-2 Standard in-cab interface	●
TSR-2 Premium in-cab interface	□
Auto phase correction	●
Diesel/electric auto switching	●
Door switches	□
Evaporator guard	■
TSR-2 rear remote control	□
Body mount enclosure	■

○ Not Available ● Standard Feature □ Option: Factory Supplied ■ Option: Dealer Supplied

T-1200R SPECTRUM Specifications

Refrigeration Capacity: REFRIGERATION CAPACITY: SYSTEM NET COOLING CAPACITY AT 30°C AMBIENT TEMPERATURE UNDER A.T.P. CONDITIONS

Return Air to Evaporator

0 degrees C -20 degrees C

Capacity on engine power	11000 W	6400 W
Capacity on electric stand-by	7000 W	5000 W

Airflow:

Airflow volume @ 0 Pa static pressure	N/A
---------------------------------------	-----

Weight:

Model 30: cooling and heating on engine operation	384 Kg
Model 50: cooling and heating on engine and electric stand-by operation	441 Kg

Engine: Low Emission, 4 cylinder, liquid cooled

Model	TK376
Rating	14.6 KW
Maintenance Interval	2000 hrs

Compressor: LIGHTWEIGHT ALUMINIUM ALLOY.

Model	X430 C5
Displacement	492 cc

Electric Stand-by Motor:

Voltage / Phase / Frequency	230V/3Ph/50Hz, 230V/3Ph/60Hz
Rating	7.5 kW

Refrigerant: R-404A ZERO OZONE DEPLETION POTENTIAL (ODP), INTERNATIONALLY APPROVED

Charge	5.9Kg
